

ECOSTYLE

TOWEL BAR RADIATORS

Elegantly designed straight and curved Towel Bars
White enameled finish or polished chrome
Provides both radiant heat to room and towels
Well suited for standard efficiency and condensing boilers
Easy to sub-zone

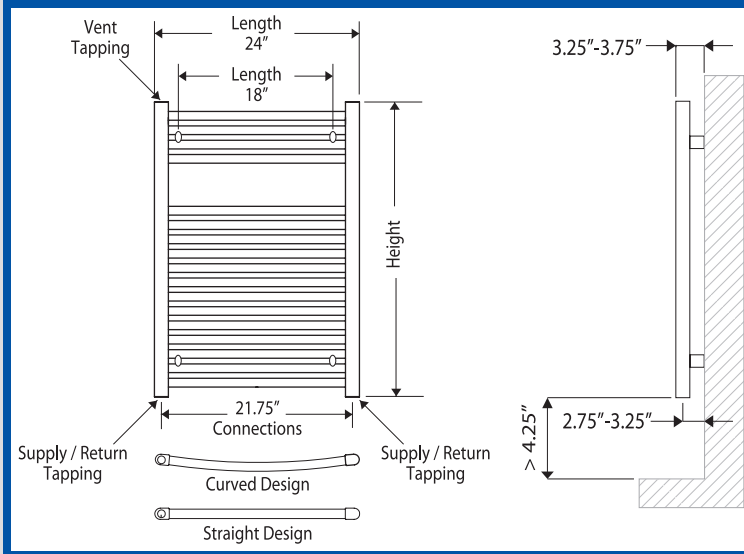

TOWEL BAR RADIATORS

Bringing together premium quality and efficiency with designer looks, the Ecostyle Towel Bars are tubular radiators that have been used in Europe to heat towels as well as whole bathrooms, kitchens, and hallways, without wasting valuable wall space. These towel bars bring comfort and elegance to all types of interiors.

Available in both straight or curved bar design, they can be ordered in white or chrome with outputs ranging from 1,346 BTU/HR to 3,967 BTU/HR. Their compact profile being 24 inches wide and either 33, 48, 59 or 70 inches tall enables them to fit in tight spots

Ecostyle Towel Bars have two 1/2" bottom connections, a top air vent connection and mounting hardware. Optional non-electric thermostatic heads and valve sets are available for sub zoning.

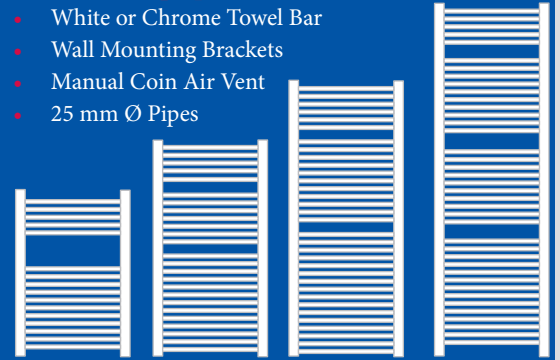

Optional Equipment

- Valve Kits (White & Chrome)
- Automatic Hygrosopic Air Vent

Included Equipment

- White or Chrome Towel Bar
- Wall Mounting Brackets
- Manual Coin Air Vent
- 25 mm Ø Pipes

Ecostyle Towel Bars 3-1/2" Pipe Connection
